

CHARM PACK QUILT SIZE CHART

Want to make a quilt using charm packs (5 inch x 5 inch squares) but not sure what you need?

The finished size of a charm pack once it is sewn into a quilt is 4-1/2 inches. Now decide what size you want to make your quilt. Let's say a little crib size. If you do a layout of 6 blocks across and 7 blocks down (6 x 7) it will take 42 squares and the size will be 27 x 31-1/2. Now just add borders to get the finished size you want.

Here is a chart that may help
