

“Redneck Tape Measure”

Take a few inches of 1/4"-wide masking tape and wraps it around the index finger of your right hand. Instant measuring tool and literally stuck to you so you can't misplace it.

As you guide the project you are binding, you can always be able to confirm that you stop a 1/4" from the edge of the project. You no longer have to hunt for a ruler or measuring tape. Just line it up with your finger!
